## TECHNICAL SKILLS

---

**Languages:** R, Python, SQL (Postgres)

## PROJECTS

---

### Oregon Wine | *R, PostgreSQL*

June 2026 – Present

- Developed an interactive spatial data visualization application using R Shiny and Plotly to analyze and display Oregon viticulture data.
- Integrated a live PostgreSQL database connection to query and serve geospatial datasets efficiently, reducing application load times.
- Designed intuitive, user-facing filtering tools to translate complex climate and geographic variables into actionable insights for regional stakeholders.

### World Happiness Index | *R, Shiny*

March - May 2026

- Built a dynamic R Shiny dashboard to analyze and visualize global happiness metrics in relation to socioeconomic factors like GDP and life expectancy.
- Leveraged ggplot2 and Plotly to construct interactive, multi-dimensional charts, enabling users to isolate key correlations across regions and timeframes.

### Gambling & Bankruptcy Rates | *SQL (Postgres), Grafana*

March - May 2026

- Collaborated to build and deploy a robust ETL pipeline analyzing the correlation between legalized gambling and regional bankruptcy rates.
- Wrote optimized SQL queries and transformations to aggregate and structure highly fragmented economic datasets for analysis.

## EXPERIENCE

---

### Licensed Substitute Teacher

*Beaverton & Hillsboro School Districts*

August 2025 – Present

*Beaverton & Hillsboro, OR*

- Reduced operational disruption for full-time staff by maintaining continuity of process, protecting instructional/workflow timelines, and preventing lost productivity.
- Rapidly onboarded to new environments, systems, and stakeholder groups on a daily basis across 24+ schools in 6 school districts, quickly interpreting context and expectations with minimal guidance.

### Math/Art Teacher Grades 8-12

*Lyle School District*

Aug. 2020 – Jul. 2025

*Lyle, WA*

- Redesigned curriculum delivery to function under significant technical constraints (limited/no internet access), independently producing and publishing all instructional content.
- Served as sole subject-matter expert on district curriculum adoption committee; led research into evidence-based curriculum options and successfully advocated for district-wide adoption, standardizing instruction across all grade levels.
- Regularly revised assessment tools to improve alignment between evaluation criteria and instructional content, increasing accuracy of performance measurement.
- Built trust and rapport with a student population where 75%+ had experienced trauma, applying relationship-centered strategies to improve engagement and learning outcomes.

### Math Teacher Grades 7-8

*Ketchikan Gateway Borough School District*

Aug. 2018 – June 2020

*Ketchikan, AK*

- Decomposed complex, multi-step subject matter into scaffolded components, iterating delivery across multiple sessions to accommodate diverse learning needs and maximize comprehension.

EDUCATION
